Professional Summary

Motivated and detail-oriented Front-End Developer and UI Designer with a strong foundation in HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, and GSAP. Experienced in designing responsive, accessible, and visually appealing web interfaces. Eager to contribute to a collaborative development environment and continually expand technical skill sets.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, GSAP

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator

Version Control: Git, GitHub

Programming Languages: Core Java, C

Other Skills: UI Design, Responsive Web Design, Cross-Browser Compatibility

Projects

Portfolio Website

Technologies: HTML, CSS, JavaScript, GSAP

- Designed and developed a personal portfolio to showcase projects and skills.
- Integrated GSAP for smooth, engaging scroll-based animations.
- Created a fully responsive layout adaptable to all device sizes.

Weather App

Technologies: HTML, CSS, JavaScript

- Developed a real-time weather app using public API integration.
- Designed a simple and user-friendly interface with dynamic weather data rendering.

Varsha Fuel

Technologies: HTML, CSS, Bootstrap, JavaScript, PHP

- Designed and structured a multi-page static website for a fuel station business.
- Used Bootstrap for responsive layout and basic PHP for form handling.
